<p>Hearing protection</p> <ul style="list-style-type: none"> Prolonged exposure to high volumes may cause permanent hearing damage. When you use headphones to listen to music or call, it is recommended to use the minimum tone required for the music or call to avoid damage to hearing. <p>Traffic safety</p> <ul style="list-style-type: none"> Exposure to high volumes while driving can be distracting and lead to accidents. Comply with local or national regulations. Do not use this device while driving. Remember that driving safely is your first duty and do not engage in distracting activities. The car's electronics may fail due to radio interference from the equipment. Please contact the manufacturer for details. Wireless devices may interfere with the flight system of the aircraft. Please comply with the relevant regulations of the airline and do not use wireless devices in places where they are prohibited. Pay attention to your own safety and the safety of others if you use headphones while engaged in activities that require concentration, such as riding a bicycle or walking on or near roads, construction sites, railways. You should remove headphones or adjust the volume to ensure you can hear ambient sounds, including alarms and warning signals. <p>Operating environment</p> <ul style="list-style-type: none"> Do not use the device in a dusty, wet, dirty place or near a magnetic field. Otherwise, the internal circuit of the device may fail. Keep the device away from appliances with strong magnetic fields or electric fields, such as microwave ovens and refrigerators. Do not use the device during thunderstorms. Thunderstorms may cause equipment failure or electric shock hazards. It is recommended to use the equipment in the temperature range of 0° C to +45° C. When the ambient temperature is below +5° C, electricity performance is limited. 	<p>Accessories requirement</p> <ul style="list-style-type: none"> Use only accessories approved by the equipment manufacturer and compatible with this type of equipment. If other types of accessories are used, it may violate the warranty terms of the equipment and the relevant regulations of the country where the equipment is located, and may lead to safety accidents. For approved parts, please contact the manufacturer. Use the power supply (such as UL, CSA, VDE, and CCC) that is approved by relevant authorities and complies with electrical specifications and local regulatory requirements. Otherwise, the power supply may cause fire, explosion, and other hazards. Battery safety. Do not disassemble or modify the battery, insert foreign objects, or immerse the battery in water or other liquids to avoid electricity leakage, overheating, fire or explosion. Batteries can only be replaced by the manufacturer. Do not drop, squeeze, or puncture the battery. Avoid exposing the battery to high external pressure, which may lead to internal short circuit and overheating. Do not use the battery after it is immersed in water. At very low pressure, the battery may explode or leak. If the battery appears swollen, leaked, discolored, smelly, or other abnormal, do not continue to use the battery. Be careful and dispose of the battery immediately in accordance with local laws and regulations on battery handling. <p>Maintenance.</p> <ul style="list-style-type: none"> If the product with lithium battery is not used for a long time, make sure to charge it at least once every three months. 	<p>Keep the equipment and its accessories away from rain or moisture, which may cause fire or electric shock.</p> <p>Before cleaning and maintenance, stop using the device, shut down all applications, and disconnect all connections or cables from other devices.</p> <p>Do not use strong chemicals, cleaning agents, or strong detergents to clean the equipment or its accessories. Otherwise, metal objects may be attached and may cause injury.</p> <p>Do not touch magnetic stripe cards (such as bank cards and phone cards) with the device for a long time. Otherwise, the magnetic stripe cards may be damaged by magnetic fields.</p> <p>Do not place the equipment and its accessories in areas with too high or too low temperature, otherwise it may cause equipment failure, fire or explosion</p> <p>Operating environment</p> <ul style="list-style-type: none"> Do not use the device in a dusty, wet, dirty place or near a magnetic field. Otherwise, the internal circuit of the device may fail. Keep the device away from appliances with strong magnetic fields or electric fields, such as microwave ovens and refrigerators. Do not use the device during thunderstorms. Thunderstorms may cause equipment failure or electric shock hazards. It is recommended to use the equipment in the temperature range of 0° C to +45° C. When the ambient temperature is below +5° C, electricity performance is limited. Do not place the device in direct sunlight, such as the dashboard or window sill. <p>Pay attention:</p> <ul style="list-style-type: none"> Avoid accidental ingestion, keep earphones and accessories away from children and pets. The headset contains lithium batteries. If swallowed, it may cause serious injury to human body. Seek medical attention immediately. Minors should use the device under supervision. Please stop wearing and consult your doctor if you feel skin discomfort while 	<p>Pay attention:</p> <ul style="list-style-type: none"> wearing due to individual differences. Do not open or remove the shell for maintenance without authorization, which may lead to the risk of fire or injury. If the product is damaged for any reason, it must be repaired by a professional or contact the manufacturer. There are no user replaceable parts inside. Do not place the device in a fire or at a high temperature. Placing the device in a fire or in an environment where the temperature exceeds 100° C will cause explosion. <p>Environmental protection</p> <p>Do not dispose of the equipment and its accessories as ordinary household garbage. Comply with the local laws governing the disposal of this device and its accessories, and support the recovery action.</p>
